About Segantini Catering

Segantini Catering is managed by its owners Gianni and Simone Segantini, who have turned their passion into their business. With a love for details and supported by a dedicated team, they have successfully carried out business- and private events for the past 25 years.

From the professional planning to the on-site hosting, be it an event for 20 or 2,000 people, Segantini Catering offers their guests an exquisite cuisine accompanied by an overall stylish ambience.

No matter how many guests, whether at a fair, in a café or bar, at a private or a business event: even our most sophisticated customers can count on having our staff's full attention, so they can enjoy our first-class catering service and a delightful culinary experience.

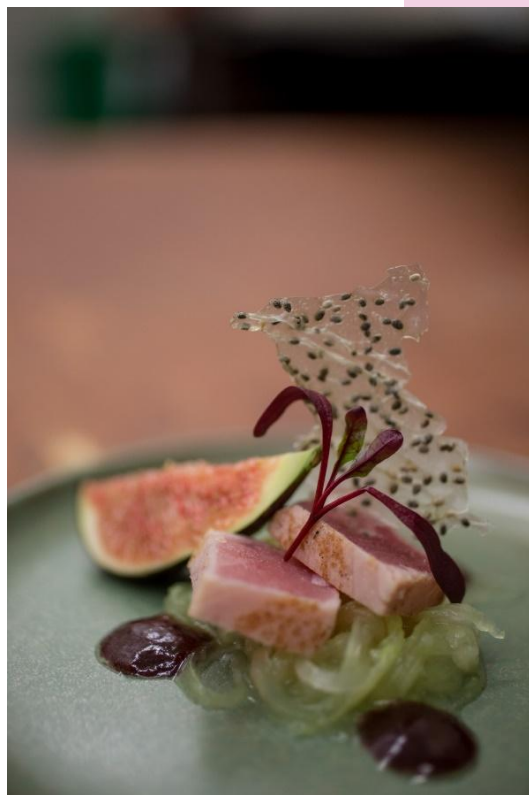

Kitchen

Our dishes focus on innovation and quality. Local products meet international recipes, which are interpreted within the Zeitgeist. With passion and a joy for flavours head chef Alex Zollinger and his team spend their days creating luscious experiences.

The kitchen is the centre piece of Segantini Catering. Our menus are seasonal and regional, the ingredients are sourced from our sustainable and longstanding production partners in Switzerland, Italy and France. Organic products are prioritized, and all dishes are prepared with fresh ingredients. No additives, trans fats or semi-finished products are used, and fish products are MSC certified.
